

Breast Cancer - Ductal Carcinoma In Situ (DCIS: BIRADS 6)

11/8/2020

I have one patient with Ductal Carcinoma In Situ, DCIS, BIRADS 6, malignant breast cancer. She supposed to get Breast removal and chemotherapy. After doing my treatment and supplements, she got everything back to normal. Cancer free. (Narrated by Dr. Lin)

This is what she said to me:

Thank you, Dr Lin. Always feel better after seeing you. Yes. It's been since 2016 and I'm still healthy! Grateful for all you do!!

Judy W

Remark: Dr. Lin Does Not Treat a specific condition, instead of helping the body's natural Self-Healing and Self-Regulating functions.
