11/14/2015

Dr. Lin uses simple natural medical method of treatments which minimizes the unnecessary sufferings and pain in cancer patients who would go for chemotherapy. There are NO pain, sufferings and side effects at all during his treatment protocols. In a short period of time, you will see an unexpected result from doing his protocols. It is a miracle seems from God's hand to heal you. His inventions of those simple medical devices are made, just like people have seen the movie scene, they can only say " it is incredible". If it is not my personal experience with Dr.Lin, it is simply unimaginable for me.

What his sayings is that " I don't treat any diseases or cancers, just inspecting your body to see any deficiency of biological materials in the defense of mechanism. What I can only do is to strengthen your body with the right nutrients and energy, let your body do the work and destroy the cancer cells or whatever it is. "

In fact, this is the Chinese medicine called " long term cure" to remove the root cause of the health problem, Western medicine is "temporary cure", just covers up the signs and symptoms even with the surgery is performed.

His sayings are so clear and simple that people can understand thoroughly. I remember when I drink "soda" also reminds me that when I worked in Shanghai years ago, there was a master who had stomach pain, he drank the "baking soda" and immediately it relieved the pain, it is so effective, the natural therapy has the most practical effect.

Practically, I can understand the instruments used by Dr. Lin, and the supplements that I take , all strive to nature, back to nature, there is no "drug" in the supplements.

Now Dr. Lin primarily enhances my body's immune system, I start working after I have his treatments, it breaks the law of convention that cancer patient can not work because of the illness.

His treatments also opened my eyes. This week, November 13, 2015 , I went back to Mount Sinai hospital to recheck my body.

Everything is normal, CANCER FREE.

Anyway Hey! Dr. Lin , you assure me that I could live happily, then I put my life in your hand forever.
