

Hyperbilirubinemia, Acnes, Yellow Skin & Allergic Dermatitis
11/10/2018

Good Morning, Dr Lin

It's Rosa, Kaplan's Mom. After my son saw you the first time on 10/26/2018. I see a difference on his skin!!

I wanted to thank you from the bottom of my heart for saving my son's life!! 😊

We didn't have a chance to come for ozone, but we'll schedule for next week. He's been busy, I took him for massage and talk to a psychiatrist as he was feeling very depressed. He's happy with the results now, he understands now.

I also want to come for myself, I didn't have time as I was staying close to him and make sure he took your meds.

I won't forget your help, you're a genius, compassionate person. GOD Bless you!!

Remark: Dr. Lin Does Not Treat a specific condition, instead of helping the body's natural Self-Healing and Self-Regulating functions.
