I was very pleased to get to know you Dr. Lin.

I am writing to express my gratitude for the treatment that I received at your hands for the last 3 months. It is a great feeling to know that there is an Alternative Medicine that can treat any type of diseases, and you are someone to rely on in times of bad health.

Sincerely thank you for making me feel at home and restoring my whole body! I believe you are the best doctor by putting your knowledge available to us.

God bless you!

Kindly,
- Mirtho
