

## Breast Cancer

6/24/2014

Dr. Lin:

I am so happy to tell you that my mom's breast cancer (Invasive ductal carcinoma) are all clear. The medical oncologist cannot find anything in my mom's breast. My mom just took your supplements, recommendations and treatments for 4-5 months. It helps her a lot. Natural medicine really does have the incredible results for cancer..

Thank you very much.
