

Gallbladder Cancer

4/15/2013

I am so glad to provide this statement for Dr. Lin, who has been my doctor of natural medicine for 8 months.

My experience with Dr. Lin has been excellent. He was always ready to provide a quick appointment.

He is a great professional, very good listener, compassionate, understanding, respectful, and knowledgeable, who enjoys partnering with patients to support their health and well-being.

Dr. Lin has a multidisciplinary innovative perspective to health and healing. He focuses on addressing the patient's specific health situation. His accurate holistic therapies provide health care treatments that nurture mind, body, and spirit.

He focuses on strengthening the immune system, helping to increase circulation, and reaching integration among the different aspects of the patient's personality.

I highly recommend him!

- Lydia

Remark: Dr. Lin Does Not Treat a specific condition, instead of helping the body's natural Self-Healing and Self-Regulating functions.
