Mr. Irving Pheterson  
Miami Beach, FL 33179

Dear Mr. Pheterson

Just a brief note to review the biopsies which we performed in the hospital on  
your urinary bladder. One of eight biopsies showed carcinoma in situ.

The Cytology was also positive. I will discuss the implications of this and whether we should proceed with further intravesical therapy.

Sincerely,

Mark S. Soloway, M.D.
